sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, pony which it also appears to exert a distinct and spacefile action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single hox of these Chalybeate and will make at short notice coffins of every

which forms them.

In Dyspepsia, innumerable as are its cauces, a single how of these Chalybeate Pills has often sufficed for the most habitual research of the most habitual cases, including the attendent Costiceness.

In unchecked Diarrhoma, even when advanced to Dysenicry, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss official and stength debilitating cough, and remittent heetic which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances. In Scrollutous Tabercatious, this medicated from has had ar more than the good effect of the most cautiously ballanced preparations of iodule, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invertably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers, it must necessarily here are the second of the second o

## ABRAHAM LINCOLN, THE RE-PUBLICAN NORINEE FOR PRINCIPATE.

Abraham Lincoln was born in Hardin County, Kentucky, Feb. 12, 1809, and is of source \$1 years old. His parents were of naker stock, that migra ed from Pennaylvania to Virginia, whence his grandfather removed in 1751-2 to Kentucky, and phile at work on his clearing. Like most pieneste, he left his family poor; and his Bison also died rematurely, leaving a widow end several children, of whom Abraham moved soon after to Southern Indiana, where Abraham grew to the stature of six feet and some inches, but enjoyed scarcely better facilities for schooling than in Kentacky. Probably six months in all of the endest sort of schooling comprehends the whole of his technical education. But haid work and plenty of it, the rugged experiences of sopiring poverty, the wild aports, and rude games of a newly and thinly peopled forest region—the education been of the log-calin, the rifle, the ex, sad the plow-made him the man be her since proved himself.

At 21, he pushed further West into Illinois, which has for the last thirty years been his home, living always near and for come years past in Springfield, the State Capital. He worked on a farm as hired mun his first year in Illinois; the next year he was a olers in a store; then volunteered for the Black Hawk war, and was chosen e eap air by his company; the next year was an unsuccess ul candidate for the Legselecture ; was chosen the next, and served hour sections with eminent usefulness and steadily increasing reputation; studied law, meantime, and took his place at the bar, was carly recognized as a most effective and convincing advocate before the People of Whig principles and the Protective policy, and of their illustrious embodiment, Henry Clay; was a Whig candidate for Elector in nearly or quite every Presidential contest from 1836 to 1852 inclusive was chosen to the XXXth Congress from the Central District of Illinois in 1840, and served to its close, but was not a candidate for re-election; and in 1849 measurably withdrew from politics and devoted himself to his practice, until the Nebraska Iniquity of 1854 called him again into the political arena. He was the caudidate of the Whigs for U.S. Senator before the Legislature chosen that year; but they were not a majority of the body; so he declined and urged like friends to support Judge Trumbull, the candidate of the anti-Nebraska Demonrats, who was thus elected. Mr, Lincoln's name headed the Free ont Electoral Ticket in Illinois in 1856.

In 1858, he was unanimously designated by the Republican State Corvention to succeed Mr. Douglas in the Senate, and thereupon canvassed the State against Mr. D. with remarkable ability. Mr. Douglas secured a majority of the Legislature and was elected, but Mr. Lincoln had the larger popular vote.

#### HANNIBAL HAMLIN.

Hon. Hannibal Hamlis, the Republican cominee for Vice President, is one of the U. S. Senators from Maine, of which State te has been Governor. He was a Democrat, prior to the organization of the Republican party. In the various public stations to which he has been called, he has acquitted himself with ability and credit.

No better nomination, it is believed, could have been made from the Eastern States for Vice President, as Mr. Hamlin is not only strong in his own State, but throughout New England, to which the honor of this nomination birly seems due

Republicanism in Virginia. Notwithstanding the peculiar institution has been made the subject of such intense excitement in the Old Dominion within a year, it yet appears that there are some spirits left upon its soil who desire to keep up the agreation, hoping that in the erruggle slavery will go down under foot. Such were those who assembled in the city of Wheeling on the second cay of this month, to form a State Republican Convention. Although several Democratic newspopers In Virginia attempted to arouse mob prejudice against the Convention, there was a very large attendance, and the entire proseedings were a complete success. This fact is the n ore remarkable, and shows a aleady increase of free soil sentiment in Virginia, when it is considered that four years ago a mere handful of men met in Wheeling for a similar purpose, and viere dispersed by a lawless mob, smid violence and personal danger.

An address and resolutions, expressing the principles of the Republican party, was adopted with hearty enthusiasm. Senator Caldwell, formerly Mayor of the city of Wheeling, made a thrilling speech in behalf of free labor. Ten thousand copies of the address and resolutions, in English, and two thousand copies in Gorman, have biready been printed, in pamphler form, for gratuitous distribution throughout the State. The Wheeling Intelligencer, a very able and influential daily newspaper, speaks

It is a very sign ficant fact, which we of the Wheeling Convention prove the ex- cage?" latence of a strong under-current of antislavery feeling in Virginia. True, it may not be popular or convenient for men to express opinions hostile to slavery, on Bouthern soil; and our readers are acquainted with cases where those who have been hold enough to do so have endured civil or ecolesisstical loss in consequence. Yet, there are many who, surrounded by slavery, hate it with their whole hearts; and it only needs a few strong and influential public demonstrations such as that which has taken place at Wheeling, to draw all such together, and openly enlist them in a common cause. We are thrice glad, therefore, that Virginia has thus sent her Republican delegates to the great Convention at Chicago, and that they received such a hearty welcome.

The Chicago Convention. SCENES PRECEDING THE NUMBERSON.

The President of the Convention aunounced it in order for delegates to name candidates without debate, when the followg stirring scene took place:

#### LOCAL ITEMS.

-Proceina Ciry....The luner harbor presented, on Saturday, the appearance of a ficating city. There were some eighty sail of ves-sels anchored there, seven-eighths of which were fishermen, and the masts and rigging worn an thick in some places as to render it difficult to see through them, recembling a birch swamp in winter when the trees are barren of leaves. Estimating these at ten men to a vessel, which is about the average, and we have a floating addition to our population on that day of seven hundred persons. There is, we are happy to say, much moral improvement in these men as a class, from what they were some years ago, when they were the terror of all well disposed persons in the city, and the time of their arridread. A better class of mon have superseded the rowdies and ruffians of former years, and there is less drinking and less carousing and aghting. We do not recollect having seen an intoxicated or disorderly man among the fishermon this season, and the streets have on several occasions been throughd with them. Some dozen or more of them were present at the tion. [Renewed cherts.]

WATER OIL!!

HEBARD'S PATENT WATER OIL, to the burn in Kerosene Lamps, without the smell and smoke of the Geal Oils, is the greatest artificial light yet discovered. It gives a steady, clear, soft light and does not choke the lungs with foreign matter, such as resulting enerally from using Rosmand Kerosene Oils or Geal Gas.

The flame can be regulated to afford any amount of light desired, from that of the large solar lamp to the feeblest haper. We therefore claim for the Water Oil the following as some of its leading characteristics:

1. It emits no foetild odor.

2. It will burn in Kerosene Lamps without alteration. WATER OIL!!

2. It will burn in Kerosene Lamps without alteration.
3. It is essentially an Oil, and yet will not grease the most delicate fabric.
4. It is less volatile than other oils, consequently will not consume as rapilly.
5. The flame is more purely white and soft than that of any other Oil or Fluid. Therefore less injurious to the eyes.
6. The wink may be raised to a great height and breadth, giving an immense illuminating power without producing smoke.
7. Its great specific gravity renders it not only safe, but the most cocomical Oil in existence.
8. It does not vant cocomical Oil in existence.
9. It does not vaste, as every globule of Oil and every particle of Water is entirely consumed.

The following is the Certificate from Dr. Hayes an the illuminating power of the WATER OIL as compared with the best article of Kerosene Oil in the market;—
18 BOYLSTON STREET, 14th Feb. 1850. Results of comparison of the light of two lamps, one fed with Kerosene Oil, and the other with Water Oil, furnished by B. F. Hebard.

The Kerosene Lamp when lightled sone in-

other with Water Oil, jurnished by B. F. Hebard.

The Kerosene Lamp when lighted soon increased its volume of flame, so as to present a dult halo above the brilliant part; it was adjusted to the highest pointwithrut producing snoke. On lighting the lamp fed with Water Oil, it was found that its flame was luminous and might be much extended, without the production of smoke. A definite point perfectly practical, was reacted, when the Kerosene Lamp being 108, the Water Oil Lamp afforded the light of 132, without a trace of smoke emitted. The Water Oil permits of any diminution in the flame without loss of economy.

Respectfully,
A. A. HAYES, M. D., State Assayer.

AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remoty, he relies upon MERCURY, and gives it to all his patients in Fills, Drops, &c.; so the Nostrum maker, equally ignorant, adds at to his so-called Extraut, Specific, Antidote, &c.; reliying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer morths or years, until relieved or cured by competent Physicians.

COAL.

The subscribers take this method of returning thanks to their many patrons for the increased orders from year to year, for their LYKENS VALLEY FRANKLIN. COAL.

The mines from which this Coal is taken were never in so promising a condition as at present, and such improvements have been made for preparing and soréening it as warrent us in saying that we believe the Coal will be shipped in better order than ever before.

The superior quality of the Franklin Cual having become fully catablished, the demand has rapidly increased, and an evidence of its great popularity is the fact that soveral dealers have adopted its name in full or in part, thereby hoping to introduce other kinds of inferior Coal by which the public have often been deceived.
